ECO T-SHIRT  
RANGE

# THE VISIBULL RANGE OF ECO T-SHIRTS

## What are they?

A unique premium range of ECO t-shirts produced to the highest standards in a vibrant range of colours and in multiple sizes.

The core range are medium fit Unisex t-shirts and we also have long sleeved Unisex, Women's style V-neck and children's options.

## How are they made?

From his studio in North Worcestershire, artist Julian Bull has created a unique process to create handmade wall art prints direct from sections of processed log. The resulting prints are striking and highlight the hidden beauty with trees.

Many of these handmade originals are then digitised, with the resulting images being used as a base to create this small batch range of t-shirts.

## How are they ECO?

Our range exclusively features imagery and messages about trees and the environment.

The blank T-shirts we source are made from 100% GOTS certified organic cotton from India provided by a top quality European company that specialises in making premium, sustainable clothing that shows respect for both people and the planet.

The inks used are water-based NeoPigment™ inks which are absolutely free of heavy metals, formaldehyde and Alkylphenol Ethoxylates (APE), making them non-hazardous, non-toxic and biodegradable.

## T-Shirt Care

We recommend washing at 30°C and line-dried (i.e. not tumble drier). This helps to protect the environment ensure the longest life possible for your garments.
